

BBA UNIFORM

BBA department was the first department in Shillong College which had a uniform of itself. In order to boost the professionalism of this course, MSC took one big step ever taken by any other colleges in Shillong by

creating executive uniform for students of Business Administration. The idea was coming up by the MSC 2017 batch and they made a competition for the design of the uniform and chose the best and

most voted one as the uniform that we are wearing today. From the academic year of 2017-2018 June, BBA uniform was launched officially and was worn by every student.

Uniform of both boys and girls:

- Navy blue trousers and blazers
- Long-sleeved light blue button up shirts
- Badge of Shillong College on the upper right-hand side of the shirts and blazers

Objectives of BBA Uniform

- to bring about interest from other Business Administration courses to have their own executive uniform
- to reduce the expenses for clothing of students
- to have a unique image of the BBA department which is the professional course
- to make the students to feel calmer and more self-confident, as well as to build a sense of unity and accountability

Shillong College now has uniforms for all departments with different designs and colours and it has been a year already. The big start of our MSC's idea of uniform influenced the whole college and we are being proud of it. Wearing the college logo and colours help other colleges and people outside recognize Shillong College students in a crowd.

Events:

1. **Fresher's day** is the day that we welcome the new comers to our college, since we are new to them and they are new to us it is our pleasure to meet and welcome them to the college. The first month in college is the first time someone gets exposed to the culture of the college, meets the seniors, gets acquainted with the teachers and figures out the do's and don'ts and stumbles upon or explores the ins and outs of the college therefore it is paramount that the first month be a memorable experience for the new comers so as to remove any wrong beliefs or stereotypes from their minds and introduce them to the dynamic reality of our college.

“Coming together is a beginning, keeping together is progress, and working together is success.” - By: Henry Ford

2. Games have always been an important part of human life, and have been a form of recreation and a useful platform to facilitate social interactions. Games are activities engaged on by individuals for their amusements, but the benefit doesn't just have to be amusement only. They encourage thinking, planning, organising, controlling and directing they encourage social interactions and help build bridges and strengthen bonds between individuals. Games come in many forms but the kinds of games that we as MSC are interested in introducing to the department are card games and board games that are convenient, easy to use and appropriate for all. Some of these games may include: -

- Chess
- Loddu
- Uno
- Monopoly
- Taboo etc.
